

SO WHAT IF YOU HAVE A MASTERS OR A DOCTORATE (I)

Imam Muqbil رحمه الله said:

So how many people are there who possess a doctorate in Islamic Fiqh and yet they do not understand anything.

And how many people are there who have a doctorate in Hadith and yet they do not understand Hadith.

So these certificates qualify many people for positions which they are not deserving of.

What will this title of 'Doctor' benefit you when you are ignorant regarding the religion of Allāh.

[Al-Makhraj minal Fitnah, p. 193]

[TN] - This speech from Imam Muqbil supports what Shaykh Muhammad said about some of those Sa'āfiqah who possess masters and doctorates. On the other hand, we have the Sa'fooq Amjad Rafiq who keeps on parroting that some of these Sa'afiqah have masters and doctorates hence they cannot be called Sa'afiqah.

SO WHAT IF YOU HAVE A MASTERS OR A DOCTORATE (2)

Imam Ibn Uthaimen رحمه الله said:

And that is because regrettably at this moment in time these certificates have become the criterion for one's competence. If you have a certificate, you will be employed and you will be entrusted with leadership in accordance with these certificates.

It is possible that a person possessing a doctorate is assigned to teach in colleges and universities while he is from the most ignorant of the people. A student from a secondary school would be better than him, and this is something witnessed.

Nowadays you have a person possessing a doctorate, but he does not have any knowledge at all. He either passed due to cheating or he passed superficially without knowledge being firmly grounded in his mind. However, he is (still) employed due to this doctorate. On the other hand you have a good student of knowledge who is better for the people and better for himself than this doctor by a thousand times. However, he is not successful; he is not given a teaching job in the colleges. Why? Because he does not have a doctorate.

So who is it that is actually opposing the senior scholars?!

SO WHAT IF YOU HAVE A MASTERS OR A DOCTORATE (3)

Imam Abdul-Aziz bin Baz رحمه الله said:

...they have become judges and teachers and they do not know the Salafi Aqeedah, they do not know the correct Aqeedah...

...they have become doctors and yet they are zero in Aqeedah...

...they are doctors, not just teachers, they are doctors, they have attained high-level certificates, masters and doctorates and they are zero in Aqeedah, they do not know anything in Aqeedah...

These are some of the "Doctors" who Al-Allamah Rabee al-Madkhali حفظه الله has refuted and clarified their ignorance and deviation. Their academic degrees did not protect them from fault and deviation.
